

SB 184 BONUS PAYMENTS FOR SEIU 1021 CITY & COUNTY OF SAN FRANCISCO MEMBERS!

WHAT TO KNOW

- Payments from the City and County of San Francisco will be paid on the June 6 pay check;
- Based on hours worked between July 30 and October 28, 2022, members who worked more than four-hundred (400) hours will get \$1,000. Members who worked between one hundred (100) and three hundred ninety-nine (399) hours in that period will receive \$750;
- These payments were included in Senate Bill 184 to help stabilize and retain the state's health care workforce while continuing to manage the pandemic;
- California Governor Gavin Newsom signed Senate Bill 184 into law after the labor movement applied pressure to pass the bill.;
- If members think they are eligible but did not receive the bonus, they should contact their rep for help filing a claim with the Division of Labor Standards Enforcement;
- Although the legislation applies to hospital and skilled nursing facility workers, the City & County and SEIU 1021 agreed to apply more broadly to cover anyone working on-site in a San Francisco Department of Public Health facility, including primary health networks, prison health, and more.
- The legislation covers the sheriff's deputies, Building and Construction Trades, and others who work within the Department of Public Health;
- Senate Bill 184 excludes workers and administrators who operate remotely most of the time.
