

Hand Recount Clarifications

- The hand recount is being overseen by a representative from the American Arbitration Association Elections Department. The American Arbitration Association is a neutral third-party entity that provides election services.
- If the hand recount leads to a different candidate winning a particular seat, then there will be an additional recount. The method that would be used for an additional recount would be determined at a later point.
- If there is an additional recount, as described above, then the Election Committee may consider whether to extend the deadline to file an election objection/challenge.
- The extended deadline of March 15, 2016 at 5 pm for Item 22 ELECTION CHALLENGES in the Nomination and Election Notice remains the same.
