B. **Financial Contributions to Community Organizations and Allies Policy:**
   There was a discussion over the changes and the impact. M/S/C (Schardt/Sandberg) to adopt the following modification to the Tier 3 language in the Financial Contributions to Community Organizations and Allies policy:

   **Current Language:**
   Tier 3 – Groups or organizations with which we wish to build good will and develop stronger relationships based on member involvement. Participation in these groups or organizations should include:
   - Allocate annual budget for modest contributions for events and activities that arise as the year goes on; e.g., sponsoring a baseball team, support a local group that is taking on a special project, etc. Primary purpose of this fund would be to demonstrate support for
community groups that members are active in and give members an avenue to connect their community work and their union.

Proposed Change:
Tier 3 – Groups or organizations whose service and mission we admire with which we wish to support; where our relationship is one of support and good will towards the community. Participation in these groups or organizations should include:
- Modest contributions for events and activities that arise as the year goes on.

We recognize that situations may arise such as a tsunami, hurricane, or Standing Rock, and the BFC may recommend a different approach to the board that goes beyond this policy.

Funding guidelines for Tier 3 will range from $250.00 to $500.00.
