Considerations are being made for masking and capacity at office.

There was conversation around the vaccine mandate in the City & County of SF. Theresa Rutherford shared that the employer put out a new policy mandating that all city/county employees be vaccinated. This was on the heels of the requirement for all workers in high risk positions be vaccinated. In addition, there was a new OSHA policy of being vaccinated or wearing N95 mask, and disclosure of vaccination status for high risk positions. This new policy was not discussed with the Union, and we learned of this new policy through the media. This has made being vaccinated as a condition of work. The Union has called for an inclusive and collaborative approach on the vaccination policy, and we have demanded a meet & confer.

President Bryant stated that the Local will represent all members in discussions with management regarding vaccination mandates.
