

SEIU Local 1021 Alameda County Chapters Bargaining Update, May 15, 2026

Help Us Win a Strong Contract

Come to the Board of Supervisors on May 28

1221 Oak St., Oakland, Time TBD

Our elected Bargaining Team is making progress at the table, and our members are coming together across the country, from Newark Library (above) to Santa Rita Jail on Wednesday, May 27.

If we're going to make more progress, we need all hands on deck on Thursday, May 28 at the Board of Supervisors to tell them that we need a fair contract and we need it NOW. RSVP below and help us keep the pressure on!

We win strong contracts when management understands that we are united, so keep showing up at actions and come to the action on the 28th if you can!

*We Will Send Out the Time
When We Know It*

Updates from the Bargaining Table

- We are making progress on our economic package
- The County improved their wage offer, but it is still not where our Bargaining Team agrees that it needs to be
- Members have given management presentations on more than two dozen specific classifications that are lagging behind comparable employers in the region. We focused on the recruitment and retention problems this inadequate compensation is causing, and the risk County residents are at because of our understaffing
- The County insists that our members pay more for medical benefits
- Our team believes that this increased cost needs to be offset by an increase to the County's cafeteria plan
- We are making progress on limiting contracting out and improving health and safety provisions for all workers.
