

FIGHT BACK

Trump and Congress have screwed over working people to give TRILLIONS to big corporations and billionaires.

- » 15 million people will lose their healthcare
- » Millions more will see their premiums increase - even double
- » Immigrant workers and communities are being targeted with a terror campaign
- » The Department of Education, Head Start, and programs to ensure equal educational opportunities have been slashed
- » Over 1 million workers have had their **RIGHT TO BE IN A UNION** taken away

Most people hate it, so now he's trying to cheat.

We can't let him. It's time to fight fire with fire and stand up to the bully.
