

VICTORY FOR HEALTH CARE JUSTICE

After months of pressure from SEIU members across the country, hundreds of allied organizations, and thousands of individuals of all political persuasions, the effort in Congress to repeal the Affordable Care Act has failed.

SEIU 1021 members knew this repeal would be devastating if it passed, and we sprang into action right away. We made phone calls to members of Congress and attended town hall meetings and protests.

“It was all of our voices raised together that stopped this repeal in its tracks.”

Nonprofit Worker & SEIU
1021 Vice President of Politics
Alysabeth Alexander

We have learned that politicians will serve the wealthiest people in this country at our expense unless we make our voices heard. The health care victory was made possible by good organizing as well as COPE membership, a voluntary contribution that SEIU members make to build political power for working people locally and nationally.

Now, let's make sure we hold Congress accountable should they try to deny health care to millions in the future, and as they take up federal budget cuts that will negatively affect working families. Let's keep fighting to make sure that budget reflects priorities of working people.

We need you to join with us to take this fight to the next level! Go to our Facebook page to stay updated on what is happening at the federal level, and what actions you can take in response. For more information about the COPE program, visit our website.
