During negotiations for a successor MOU, the Union and management discussed a wide range of issues identified by the Union. This letter reflects the discussions and commitments made during those discussions.

DPH, Laguna Honda (LHH) is committed to adequate and safe staffing to promote good patient outcomes. Accordingly, Laguna Honda will:

MDS (Union Proposal #36)
Laguna Honda has been studying the workflow and has determined that there is operational support for an additional RN position, which DPH will submit via the next budgetary cycle for the 2016-2017 fiscal year (FY). LHH will submit the proposal for an additional RN position not later than June 30, 2016. In the meantime, DPH is exploring the use of P103 staff.

In the event that an additional RN position is not approved for the FY 16-17 budget, 2 Float RNs will be cross-trained to perform functions of an MDS Coordinator to provide staffing coverage.

Float (Union Proposal #47)
Laguna Honda presently has 10 vacant RN positions that are in the hiring process, and expects to fill these positions in approximately June 2016. Additionally, Laguna Honda is planning to increase the number of external P103 staff.

Further, Laguna Honda is undergoing a bidding process for LVNs and PCAs, to augment the float pool for these two classifications. In addition, 6 LVN (full time and part time positions) and 10 As Needed LVN positions are in the process for hire.

CN Role in Medical Clinic (Union Proposal #52)
The Medical Clinic that operates Monday-Friday is experiencing an increase in activity. The Nursing Department in partnership with the Medical Director of the clinic will conduct a 6-month evaluation, expected to conclude in approximately December 2016, to determine if a CN reliever assignment is justifiable. The Medical Clinic has a skill-mix that includes RNs, LVNs and MEAs. Accordingly, if an RN is not present, a LVN can function as a team leader and be eligible for the Charge LVN premium.

LHH agrees to cross-train 2 RNs to perform the functions of a Clinic Charge RN to provide for back-up Charge Nurse coverage.

LHH agrees to keep the Union informed on the progress of these initiatives through the regular meetings of the Joint Labor-Management Committee.

Sincerely,

761. The Union shall be allowed to designate one attendee from the ranks of direct care providers in each of the following units listed below work units that are undergoing Department initiated continuous improvement activities, including the Interval Sampling Study. The Union will designate attendees to participate in the Department’s process improvement programs to help plan and develop work processes in the new hospital:

- Inpatient: OB/GYN, Peds
- OR/Procedural Services
- Emergency Department

762. If SFGH creates additional process improvement or other planning committees to help plan and develop work process in the new hospital prior to the move to the new hospital, the Union will be allowed to designate one (1) attendee from the Union.

763. The current patient classification system will be re-validated through a new “Time and Motion” study to establish compliance with Title 22 patient classification system and staffing ratio requirements.

RE: Union Proposal 46, Joint RN/DPH Diversity Committee

Thank you for a very thoughtful and complete proposal on the establishment of a Diversity Committee. At our presentation on April 5, 2016, we shared several documents with the Union, including the presentation to the Health Commission on March 1, 2016, and a document to the Black African American Think Tank dated July 17, 2015. These documents reflect the recent work of the Department, the Black African Think Tank and the Workforce Development Committee towards many of the goals identified in SEIU’s diversity proposal.

Rather than establish a new joint committee, we propose that SEIU designate two RN’s to represent the Union on the existing Department of Public Health Workforce Development Committee (“Committee”). The RN Unit representatives will receive release time from work to attend Committee meetings. In the event a meeting is not held during an employee’s scheduled shift, the employee will be assigned by the Department to attend the meeting and compensated accordingly. The Committee already uses many of the management strategies described in your proposal, and we are open to additional ideas and approaches. The Department believes that a key to the success of our Committee will be contributions from many individuals from different classifications and backgrounds.

In addition to designating RN representatives to the Committee, the Union may submit written recommendations for the Committee’s consideration.

Finally, along with this proposal, I am attaching the Department’s February 1st memo regarding “Fair and Equal Hiring Process” that identifies guidelines for making hiring decisions. This is another example of the Committee’s work. We look forward to your cooperation and participation in the existing Committee process.

Charge Nurse and Acting Assignment Pay

1. Charge Nurse Pay

333. Charge Nurses are accountable to the Nurse Manager (class 2322) or appropriate supervisor from the Nursing Department for the assumption of specific leadership responsibilities and patient care duties, as assigned. Charge Nurses shall be required to monitor, correct and report on the clinical knowledge and competency of all nursing staff, and participate in the preparation of annual performance evaluations. Completion and execution of the performance evaluation remain the responsibility of the Nurse Managers. **Employees who are newly appointed to be a Charge Nurse (primary assignment) or designated Charge Nurse Reliever shall be given a minimum of four (4) hours of initial training covering responsibilities of the role, including legal and ethical duties. The Department also agrees to provide a minimum of two (2) hours of annual refresher training for all Charge Nurses.**

334. Charge Nurses' responsibilities related to performance evaluations are not considered by the parties to be a basis to change the status of the Charge Nurse for purposes of bargaining unit representation.

335. At SFGH and LHH, such assignments shall be made for P.M., night, and weekend shifts when no management personnel is present on the unit.

336. Any registered nurse assigned to do work as a Charge Nurse for four (4) hours or more in a day shall be paid a premium of 7.5% of his/her base hourly rate above the base hourly rate of pay for such hours actually assigned.

Standards of Care

589. The City commits to maintaining the community standard of care in its Hospital operations.

S.F. General Hospital

590. San Francisco General Hospital Medical Center will comply with Title 22 Staffing regulations as amended.

As of May 1, 2016, Title 22 California Code of Regulations, Division 5, Chapter 1, Article 3, Section 70217(r) states: The hospital shall plan for routine fluctuations in patient census. If a healthcare emergency causes a change in the number of patients on any unit, the hospital must demonstrate that prompt efforts were made to maintain required staffing levels. A healthcare emergency is defined for this purpose as an unpredictable or unavoidable occurrence at unscheduled or unpredictable intervals relating to healthcare delivery requiring immediate medical intervention and care.

Until such time as the new hospital is operational the following staffing system will remain in place. In the fall of 2015, the parties will begin meeting at SFGH to establish revised staffing targets for operations transferring to the new facility.

This Article V.A.a. outlines the average number of licensed health care provider hours per-patient per-day (HPPD) necessary in the various clinical units to maintain needed nurse to patient care levels.

591. Health care providers include staff nurses predominantly; also per diem nurses, LVNs, LPTs and PCAs/CNAs. The HPPD amount and type of care provided is based on discussion among nurses, physicians, and nurse managers, taking into account the nature of the care required and average patient acuity (severity of illness).

592. As of July 1, 2014, both parties acknowledge that within the Med-Surg division at SFGH, the percentage of RNs in the HPPD count is one hundred (100) percent.

593. Actual HPPDs and Registered Nurse to patient ratios, as well as ancillary staffing, will be recorded on a daily basis and reviewed bi-weekly each week to establish actual HPPDs and nurse-to-patient ratios for that pay period. This information will be given to the monitoring committee.

594. Admitted patients with unassigned beds held in the Emergency Department or PACU will be counted in the hospital inpatient census. As such, their acuity will be determined and staffing requirements computed. Data concerning the patient’s acuity will be reported to the quarterly PCS committee meeting.

595. Section III.L. lists the specific HPPDs by unit. The HPPDs for various nursing units of the hospital are as follows:

The RN to patient ratios will be maintained at 1:4 with further decreases to ratios made based on acuity to 1:3 as required under Title 22.

Based on acuity ratings, and until such time as critically ill patients are transferred to Critical Care, such patients shall be assigned 1:1 or 1:2 RN to patient ratios.

Charge Nurses will not be given patient assignments except in unpredictable or unavoidable circumstances.

601. PACU: PACU Standards recommend that two (2) registered nurses who are competent in Phase I Post Anesthesia Nursing be present whenever a patient is recovering in Phase I or is at an ICU level of care. To the extent possible, SFGHMG will maintain no less than two (2) such nurses in PACU. This may require the floating of cross-trained ICU staff particularly on weekends, nights and holidays. Two (2) registered nurses, competent in Phase I Post Anesthesia Nursing or ICU level of care, will be present whenever a patient is recovering in Phase I. Staffing will be based on criteria which addresses the number of patients and the acuity/intensity of patients in the PACU. PACU staffing levels are established to accommodate the numbers/types of surgeries occurring. Patient/Nurse ratio in the PACU shall be a maximum of 2:1. The Department will make its best efforts to eliminate the practice of non-surgical placement in the PACU. The Department will make its best efforts to ensure that no patient remains in the PACU for more than twenty-three hours. Basic levels are:

Monday – Friday:    7A – 7P: Two (2) twelve-hour RN's

Perinatal-Maternal Child Health

603. Notwithstanding the staffing provisions set forth in paragraphs 604 and 605 below, the city can modify staffing ratios and base staffing based on operational needs consistent with Title 22 regulations.

Staffing will be regularly adjusted based on census, acuity and regulatory requirements.

Pediatric: 7.0 HPPP (2.4 patients per care) RN to patient ratio is 1:4 and is adjusted by acuity.

604. Infant Care Center (Well Baby, Observation, SICN): 7.0 to 24.0 HPPP (4.0 to 1.0 patients per care provider) The Charge Nurse shall not be counted in the HPPP calculations in the Neonatal Intensive Care Unit (Unit 611). Charge Nurses will not be given patient assignments except in unpredictable or unavoidable circumstances.

Nursery staff will determine patient acuity based on clinical needs. Each patient will be assigned to a Care Level based on these needs. The RN to patient ratio is 1:1 to 1:4 based on acuity. The patient to care provider ratio for these Care Levels will be:

- Level 1: 1:4 (four patients per care provider)
- Level 2: 1:3 (three patients per care provider)
- Level 3: 1:2 (two patients per care provider)
- Level 4: 1:1 (one patient per care provider)

605. Birth Center - The Birth Center has a fixed (base) standard of a minimum of nine (9) RNs per shift (inclusive of Charge Nurse and Triage Nurse and exclusive of break relief RNs), six (6) RN’s per shift; postpartum care offers 6.2 HPPP (3.8 to 3.9 patient/nurse ratio).

Baseline shift staffing for the Birthing Center (6C) will be:

- 8 RN’s Day Shift: 7A - 3:30P
- 8 RN’s Evening Shift: 3:00P - 11:30P
- 8 RN’s Night Shift: 11P - 7:30A

*italics = moved existing language  (double underline = new language

606. Two hours before the end of each shift, nurses will determine patient acuity. If the acuity tool calls for less than the above established baseline(s), scheduled RNs may be offered standby. Standby will be offered assigned to per diems first. Based on the acuity and census, as calculated through the present acuity system, staffing baselines will be increased to acuity needs when warranted.

Floating

607. The Perinatal Division is comprised of the 6C-Birth Center (2nd Floor Zones 2 and 4) and the 6H-Infant Care Center (2nd Floor Zones 4 and 5). A 6C-Birth Center nurse who is floated outside the Perinatal Division will be given full nursing responsibility for patients on the Gynecological (GYN) service only. In the absence of an available GYN assignment on the receiving unit, the 6C-Birth Center nurse will not be expected to take an assignment for categories of patients for whom s/he does not have documented competencies. In the absence of a GYN assignment, the 6C-Birth Center nurse will assist the unit to which s/he is floated by performing care tasks such as vital signs, point of care testing, hygiene, ambulation, routine postoperative care, and answering lights. In addition, the 6C-Birth Center nurse may volunteer to take a patient assignment other than GYN if s/he determines that s/he has the documented competencies and skills to do so.

608. The nursing supervisor arranging the float will inform the charge nurse of the receiving unit of the above parameters of the floated nurse's assignment. Unless the 6C-Birth Center nurse is receiving a GYN assignment of four (4) patients on the receiving unit, s/he will be counted as less than one nurse in the staffing of the receiving unit.

609. Changes in the Birth Center's care delivery system model will require re-examination of staffing standards/levels.

SFGH Emergency Department (ED)

618. The Department and the Union recognize that SFGH serves as the major Trauma Center for the City and County of San Francisco. The Department and the Union agree that adequate nursing care and adequate physical working space are essential to patient safety and comfort in the Emergency Department.

619. In order to ensure quality nursing care and a safe environment for patients and staff in the Emergency Department, the following nurse staffing guidelines will be observed: Staffing is dependent on needs of the Department. The Staffing Model set forth in paragraph 623 below, with the recognition that specific start times and assignments within the grid will vary according to Department needs.

620. Staffing will be in accordance with the attached budgeted Emergency Department Staffing Template, with the recognition that specific assignments within the grid will vary according to Department needs. Changes in the staffing model will be subject to discussion in Monitoring Committee, prior to implementation.

621. ED staffing and patient load documentation will be presented and reviewed by the SFGH Monitoring Committee. The Department and Union will meet to discuss data collection for the purpose of monitoring compliance with Title 22 RN to patient ratio staffing requirements.

622. The Department and the Union recognize that SFGH serves as the major Trauma Center for the City and County of San Francisco. Due to the unpredictable nature of traumatic events, sudden increased demand may be placed upon the Emergency Department. When it is necessary to receive and treat the victims of either a multi-casualty incident or of simultaneous individual traumatic events, the above guidelines may be temporarily relaxed. As of May 1, 2016, Title 22 California Code of Regulations, Division 5, Chapter 1, Article 3, Section 70217(s) states: For Emergency Departments only, if an unforeseeable increase in the number or acuity of patients in the emergency department occurs such that the patient activity in number or acuity exceeds the

ARTICLE II.B CIVIL SERVICE EXAMINATIONS

1. CIVIL SERVICE EXAMS FOR STAFF NURSES

149. Under special authority from the Civil Service Commission and subject to its approval, the City shall conduct civil service examinations and establish lists of eligibles for all Registered Nurse classifications in a timely manner. The City will make every reasonable effort to assure that employees in Registered Nurse classifications are certified permanent within ninety (90) days of the first day of employment.

150. In order to reduce the number of provisional employees in all Staff Nurse classifications, the Union agrees, pursuant to CSC Rule 113 that the City may adopt the most expansive certification rule allowed under the Civil Service Commission rules. This agreement shall be effective July 1, 2014 and shall be subject to renewal or cancellation by the Union on July 1 or January 1, with every six (6) months notice to the City thereafter. Prior to canceling this program, the Union shall notify and meet with the City in an effort to resolve any concerns about the program. 6. DPH agrees to provide funding for an outside facilitator (agreed upon by the parties) for FY 2014-15 and 15-16, subject also to an agreed upon cost. The facilitator will provide joint training; suggest ground rules; coordinate information requests and timeframes for responses; review the process and make recommendations to improve the effectiveness of the LMC process and help the parties to transform the Labor Monitoring Committee into a working collaborative process.

7. If the Committee wants a specific subject matter expert to be present to discuss a specific issue, SFGH will invite that individual to attend.

8. SFGH will add 30 minutes of preparation time for each committee meeting.

The most senior nurse may use seniority to schedule a maximum of three pre-assigned twelve-hour shifts, or forty hours of pre-assigned shifts in a pay period. In order of seniority, each nurse then exercises seniority using the same formula, until all available shifts are pre-assigned.

Each calendar year, the Department will track the shifts filled by External P103s through the pre-assignment scheduling procedures. At the end of each calendar year the Department will make the information available to the Union. The parties will discuss the usage of External P103s in the Joint Labor Management Committee meetings.

Re: Use of Ancillary Staffing

Dear Mr. Canham:

On behalf of the San Francisco Department of Public Health, I am pleased to offer this letter to confirm the commitment of the Department in providing adequate ancillary staffing at San Francisco General Hospital (SFGH). The Department will develop ongoing staffing targets after the move to Building 25 and will validate the patient classification system through a “Time and Motion” study of most inpatient units at SFGH. When that is completed, the Union and Department will meet to review the results of the study.

The attached chart reflects the budgeted and filled ancillary positions at SFGH as of April 1, 2016. The Department will submit positions in its 2016-2017 fiscal year budget. In the event these budgeted positions are decreased in the future, the Department will give notice to the Union and at the request of the Union, meet and confer on the impact of such a reduction.

Sincerely,

TENTATIVE AGREEMENT

City Proposal No.  #22 - SFGH Staffing Language Modified

Date: May 27, 2016

Time:

ARTICLE V. WORKING CONDITIONS

V.A. STAFFING

(SECTION V.A. Staffing does not apply to P103 Per Diem Nurses)

Charge Nurses on Day Shift

623. The City agrees that charge nurses will be assigned on the day shifts, Monday to Friday, on the following units: Medical-Surgical, Units 6-C and 6-A.

Determination of Acuity

624. The Hospital will continue to involve nurses, on a daily basis, in the determination of the number of staff required. Daily staffing levels are based upon the level of patient acuity prevailing on the unit. During each shift, nurses assess the severity of each patient’s illness. The supervising nurse condenses this information for all patients on the nursing unit and uses it to determine the number of health care providers assigned for the next shift.

625. The SFGH Patient Classification System (PCS) Committee is responsible for reviewing the reliability of the PCS for validating staffing requirements. The Labor Co-Chair of the SFGH Labor-Management Monitoring Committee is designated as a standing member of that committee.

626. One month prior to the quarterly PCS Committee meeting, a roster of direct delegates and supporting data will be presented to the Monitoring Committee. Release time for these provider delegates to attend a Monitoring Committee meeting and the PCS meeting will be provided.

627. A copy of the quarterly meeting minutes and annual report and supporting data, after completion, will be presented at the next, scheduled meeting of the Monitoring Committee. Daily acuity and staffing reports will be available to the Labor Co-Chair or Union’s designee, for inspection and copying. A bi-weekly summary of the staffing and acuity data will be presented to the Monitoring Committee.

628. The City and the Union recognize that staffing needs also vary over the course of a 24-hour period, and that, in addition to the Registered Nurses, Orderlies, LPTs and LVNs provide essential patient care services. An RN Staffing Evaluator position will be maintained for ongoing evaluation of the PCS system for the life of this contract or until there is a

consensus. The RN in this position will be granted one day per week for the purpose of reviewing/preparing bi-weekly and quarterly Acuity and Staffing Compliance Reports and training nurses on the acuity system. The RN Staffing Evaluator shall be selected jointly by the Union and the Chief Nursing Officer and will have access to the staffing data in Nursing Administration.

**Evaluation of Staffing Methodology**

629. The Hospital is committed to continuing vigorous recruitment efforts to fill all available health care provider positions. The SFGH Monitoring Committee will continue to review recruitment results.

630. CNA's who are assigned as sitters shall not be counted in HPPD calculations. Pending the results of the Patient classification System Study in PES (Psychiatric Emergency Services) and the following medical surgical units, CNA's shall be counted at 50% (.50) for the purposes of HPPD calculations: 4B, 4D, 5C, 5D and 5A. No more than (1) CNA per shift per unit per day shall be counted in any acute patient unit at SFGH.

**Medical Forensics Unit**

631. When open, the Department shall staff unit 7D the medical forensics unit with two (2) personnel, one of whom must be a Registered Nurse, every shift.
